DairyTrace updates for all things traceability

Welcome to DairyTrace TagTips - quick tips, helpful hints and FAQs to help you understand the most efficient ways to use your traceability tools.

Have questions? Please contact customer services at 1-866-558-7223 or email us at info@dairytrace.ca.

Accessing and adding to your tag list in the DairyTrace portal

1. From your account home page, select the **Tag Inventory** tab.

2. You can then select **Unused tags**, **Tag order history**, or **Add tag**.

- **Unused tags** includes all white dairy tags that are automatically issued to your account, and have not yet been linked to an event report. This list will include yellow beef tags only if you have added them to your account.
- **Tag order history** shows a list of all tags registered to your account, the status (State) and Type of Tag (Dairy or Beef). For information on how to sort and filter this list, see the January 10 edition of TagTips.
- **Add tags:** Select "Add yellow-button tags" if you're still using up your current yellow button tag inventory. Contact customer services for assistance.

124000000000227		Used	Dairy	<input type="checkbox"/>
124000000000228		Used	Dairy	<input type="checkbox"/>
124000000000229		Retired	Dairy	<input type="checkbox"/>
124000000000230		Retired	Dairy	<input type="checkbox"/>
124000000000230		Re-Issued	Dairy	<input type="checkbox"/>
124000000000231		Retired	Dairy	<input type="checkbox"/>
124000000000231		Replaced	Dairy	<input type="checkbox"/>
124000000000232		Re-Issued	Dairy	<input type="checkbox"/>
124000000000232		Retired	Dairy	<input type="checkbox"/>
124000000000233		Issued	Dairy	<input type="checkbox"/>
124000000000234		Used	Dairy	<input type="checkbox"/>

To see your list of available tags when reporting an event:

1. Select the **Event Reporting** tab from the home page and select the event you want to report. Example below shows Tag Activation / Birth.
2. Click the **My available tags** link

Tag Activation / Birth

Reporting Date: 2023-01-16 15:59:00

Reporting premises: QC0003101

Notes: 1000 maximum characters (0 / 1000)

Set defaults for batch fields (0) | My available tags | Generate list of tags

- You will then see a list of all the tags issued to your account and can select the tag(s) for that event report.
