Sort and filter your animals in the DairyTrace Portal

Helpful hint: When a movement, birth or death event is reported, the animal(s) are either added or removed from your herd inventory list. By viewing your current herd inventory, you can easily verify if you have missed reporting any events.

To see the current herd inventory linked to your farm premises, go to the **Animals** tab at the top of the page, then select **Animals On-Farm**. You can also choose to see a list of Animals Moved Off Farm or On-farm Disposal/Tag Retirement.

The screenshot shows the DairyTrace portal interface. At the top, there are navigation tabs: Welcome, Tag Inventory, **Animals**, Event Reporting, Premises, Account, and Language. Below this, the user is identified as 'MyProducer_1 (DT0113040)' with the username 'myproducer1'. The 'Animals' section is active, showing sub-tabs for 'Animals On-farm', 'Animals Moved Off-farm', and 'On-farm Disposal / Tag Retirement'. The 'Animals On-farm' tab is selected, and a search filter is applied. Below the navigation, there is a table with the following columns: Animal identification number, Management #, On-farm PID, Type of event, Event Date, Reported Date, Sex, Breed, and Alternate identification. The table contains six rows of data, all showing 'Tag Activation / Birth' events for various animals.

Animal identification number	Management #	On-farm PID	Type of event	Event Date	Reported Date	Sex	Breed	Alternate identification
124000000000233		QC0003101 MyFarm_1	Tag Activation / Birth	2020-04-01	2020-04-22			
124000000000234		QC0003101 MyFarm_1	Tag Activation / Birth	2020-04-06	2020-05-06	Female	Jersey	
124000000000235		QC0003101 MyFarm_1	Tag Activation / Birth	2020-04-17	2020-04-17			
124000000000236		QC0003101 MyFarm_1	Tag Activation / Birth	2020-04-17	2020-04-17			
124000000000237		QC0003101 MyFarm_1	Tag Activation / Birth	2020-04-17	2020-04-17			
124000000000238		QC0003101	Tag Activation /	2020-04-17	2020-04-17			

To sort the list, choose any of the columns in the blue header. After selecting a column, a black arrow will appear, which you can then click multiple times and the numbers will sort in ascending or descending order.
